Accreditation Statement: This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the American Academy of Emergency Medicine (AAEM) and the Delaware Valley Chapter of AAEM (DVAAEM). AAEM is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement: AAEM designates this educational activity for a maximum of *8.0 AMA PRA Category 1 Credit(s)*TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure Policy: All faculty and event planning members participating in continuing medical education programs sponsored by AAEM are expected to disclose to the audience any real or apparent conflicts of interest to the content of their presentations. AAEM's Education Committee and ACCME Subcommittee have established procedures to resolve conflict of interest.

Target Audience: The target audience includes board-certified emergency physicians and residents in training in emergency medicine.

Learning Objectives: Upon completion of this course, attendees will be able to:

Lance Becker, MD, *Resuscitation and Post-Resuscitation Cooling*

- 1) Understand the new emphasis on the quality of CPR during cardiac resuscitation; why it is important and how to optimize it in your clinical practice.
- 2) Understand the importance of hypothermia induction following return of spontaneous circulation during a resuscitation; how to best implement cooling in the emergency department and/or the ambulance.
- 3) Understand the challenges of implementation related to resuscitation; why implementation science is a rapidly growing area of interest in medicine today.
- 4) Appreciate the role of mitochondria in the setting of reperfusion injury and emergency resuscitation.

Eddy Lang, MD MDCM CCFP (EM) CSPQ, *Knowledge Translation in Emergency Medicine*

- 1) Appreciate the divide between knowledge from research and practice.
- 2) Understand the field of Knowledge Translation.
- 3) Consider local application of Knowledge Translation methodologies.

Joseph Lex, Jr., MD FAAEM, *Errors and Near-Misses in the Emergency Department*

- 1) List typical mistakes physicians make when discussing informed consent and advanced care planning.
- 2) Identify important "red flags" for serious systemic illness which can present with low back pain.
- 3) Describe the complex dynamics of transition in the emergency department.
- 4) List barriers to performing a comprehensive physical examination.

Richard Shih, MD FAAEM and Michael Silverman, MD FAAEM, *LLSA Review 2008*

- 1) Review the LLSA rendering for 2008.
- 2) Prepare learners to take 2008 LLSA exam.
- 3) Review requirements for continuous certification in emergency department.

Stephen, Trzeciak, MD MPH, *Sepsis Research and Treatment Updates: Are We Doing It Right?*

- 1) Understand recent advances in sepsis resuscitation.
- 2) Understand recent advances in sepsis research that is pertinent to emergency care.
