Organized by

- WACEM2024 is the Only Distinguished Academic Conference for Original Presentations in areas of patient centered education, research, and quality care in Emergency Medicine, Trauma and Acute Care.
- Every Submission will be accepted either for Oral or Poster Presentation.
- Selected Distinguished Oral Presentations will have an opportunity to publish their original work in any of the WACEM24 Partnered High Impact Journals.
- We welcome you to join us at WACEM2024 as we celebrate 10 years of excellence in spearheading the advancement of Academics across the world.

The Theme for WACEM24 is based on 4 INNOVATIVE PILLARS

**LONGEVITY/GERIATRIC EMERGENCY MEDICINE**

**BIOMARKERS**

**TELEMEDICINE, ARTIFICIAL INTELLIGENCE TECHNOLOGY**

**PATIENT-CENTRED HEALTHCARE SYSTEM**

*Building bridges between Clinical Medicine & Longevity/Geriatric Sciences, the Scientific Team of WACEM24 has devised a novel approach to focus the presentations on Patients as well as Patient Care Providers namely Physicians, Nurses, Medical Students, Residents, Paramedics and Technicians. Helping patients to survive in emergency medical conditions is equally important as much as the sustainable long-term health of all patient care providers implementing the preventive medicine concept.*

## WACEM24 Partnered High Impact Journals

Selected Distinguished Oral and Poster Presentations will have an opportunity to publish their original work in any of the WACEM24 Partnered High Impact Journals:

### SELECTED JOURNALS

*Eurasian Journal of Emergency Medicine*  
*Medicina (IP 2.6)*

*Journal of Emergencies, Trauma and Shock*  
*Mediterranean Journal of Emergency Medicine*  
*About Diagnostics*

## CALL FOR ABSTRACTS

Keynote speakers will provide their view for each of our strategic topics. The Organizing Committee warmly invites you to **submit abstracts** in which researchers have the opportunity to present their recent results to share at the WACEM24 in Rome.

## CONGRESS PILLARS

### • **LONGEVITY & HEALTHY AGING - GERIATRIC EMERGENCY MEDICINE**

Focused on Clinical Conditions as well as Physician Wellness and Mental Health, this signature tracks invites presenters to present on topics related to clinical medical conditions survival as well as wellness of patient care providers.

### • **MARKERS OF LIFE & SURVIVAL**

Focused on Various Markers of Life namely Clinical Biomarkers, Wellness Milestones, Fitness Goals, Clinical Datapoints, Digital Footprints of Data, Tracking Big Data and POCUS Markers, we invite novel submissions from experts around the world.

### • **TECHNOLOGY, TELEMEDICINE, AI & TRANSLATION**

Focused on Modern Technology such as Point of Care Ultrasound, Simulation, Point of Care Testing, Telemedicine & AI, WACEM24 invites opinion leaders to present their experiences and opine on various aspects of translational medicine.

### • **PATIENT-CENTRED HEALTHCARE SYSTEM**

## PRESENTATION FORMATS

- Original Research
- Clinical Audit data
- Case Studies / Clinical Cases
- Opinions based on Evidence Based Medicine
- Research Idea (Without Data)

## PRESENTATION AREAS

- Education Models
- Treatment Strategies
- Research Studies

## PRESENTATION TOPICS

- Resuscitation, Shock, Vital Organs Dysfunction, Metabolic Imbalance
- Basic Sciences, Epigenetics, Molecular Biology, Biomarkers, Inflammation Biology
- Toxicology
- Emergency, Trauma and Critical Illness Nursing
- Nurses and telemedicine and technologies
- Stroke Sepsis and Acute Cardiology
- Health Wellness
- Burnout
- Crisis Leadership
- Disaster Medicine
- Toxicology
- Migration Medicine
- General Medical Emergencies, Critical Illness and Injuries
- Geriatrics, Paediatrics & Neonatal Emergencies
- Women and Emergency Clinical Conditions and Care
- Technology Transformations
- Emergencies in patients with special needs
- Global Research Networking
- Multi-Centre, International Research Programming
- Big Data
- POCUS, POCT & Simulation & Artificial Intelligence (AI)
- Operations Management
- Patient Safety and Health Provider Safety
- Quality Care
- Economics of Patient Care
- Access to Patient Care: Challenges and Solutions
- Interesting Complicated / Rare Case or Case Series
- Interventions which Made an Impact on Patient Care and Personal Life
- Life Goals of Physicians and All Health Care Providers
- Life Changing Interventions and Strategies
- Personal Experiences which can help educate others.
- Clinical data which can help others care better for themselves and their patients.
