

# Pre-Congress Course Highlight

## Advanced EKG

Register Today!

Sunday, 22 September 2019 | 08:00 - 12:00

### Course Description

Four hour engaging workshop reviewing EKGs pertinent to the practice of emergency medicine, including: the consideration of subtle ischemia and infarct patterns, clinically significant arrhythmias, and a myriad of ED diagnoses that can benefit from the informed consideration of an EKG.

### Learning Objectives

Upon completion of this course participants will be able to:

- Outline systematic interpretation of an EKG with attention to important differentials
- Identify subtle presentations of ischemia and infarct.
- Compare and contrast important abnormal rhythms presenting to the ED.
- Evaluate an EKG as one facet of a variety of critical ED presentations.

### Course Fee

- Organizing Society Member (AAEM, MAEM): \$175 USD
- Non-Member: \$200 USD

### Faculty

**Course Director: Susan P. Torrey, MD FAAEM FACEP**

Associate Professor of Emergency Medicine, UMass Medical School / Baystate Medical Center, Springfield, MA, USA

**Faculty: Ashley Deutsch, MD FAAEM FACEP**

Assistant Professor of Emergency Medicine, UMass Medical School / Baystate Medical Center, Springfield, MA, USA
